	Vocabulary List	6

**Additional Notes:** Χαίρετε! I hope this week finds you well. Let's spend some time refreshing our memory of vocabulary. All this verb work is very difficult if you don't recognize the principal parts. Monday through Thursday I would like you to work on the vocabulary list (page 6 or google spreadsheet). Once the entire list is completed you can either scan it or simply type the English words in the spreadsheet to submit it. You should print a copy to use for the remainder of the year so you needn't flip through the book to look for words you don't know or principal parts. I've also added a page just for the 36 verbs we've encountered this year. Print it as well and have it nearby when we begin working on new forms and sentence translations. I added the list along with the packet in spreadsheet form so that you can download it if you want and use it as you see fit. While we won't do any other exercises this week, I would encourage you to look ahead at participles if you have time. We will cap the week with a vocabulary quiz.

**VOCABULARY:** While students are expected to have memorized the vocabulary from previous chapters, they may utilize the Greek word study tool found [here](#): <http://www.perseus.tufts.edu/hopper/morph> if needed. All new vocabulary was provided in the Ch. 6 attachment.
