Additional Notes: The primary objective of this packet and those that will follow is to provide an opportunity for musical enrichment in the form of continuing our study of instrumental performance. As we further our study of the recorder, students will be provided with a brief introduction to a unit in their Sweet Pipes book and then daily outlines for practice routines. ***Students will then reflect on each day's practice and obtain a parent signature in the practice log; this practice log will be turned in for credit.*** Each daily practice outline should only take ten minutes to complete; as with any mode of practice, intentional repetition is a key facet to developing a skill well. There may be exercises that come up more than once in a week's routine. It is imperative that these are repeated in order to instill the proper technique. Remember that the mind may grasp the concept quickly, but your fingers and tongue need time to catch up. Most of all, have fun with this opportunity to grow as a musician!

As always, will be available to provide support via email, and I will be checking my inbox regularly. Please do not hesitate to reach out with questions or concerns during this time. For your reference my email is kevin.austin@greatheartsnorthernnoaks.org
